Summary

Aspiring Full Stack Developer and Machine Learning Enthusiast with experience in web and app development. Skilled in building scalable applications and intelligent solutions, integrating AI for data-driven insights.

Education

B.Tech in Artificial Intelligence and Data Science	2023–2027
Kongu Engineering College, Erode	CGPA: 7.65
HSC – Thanappa Gounder Matric HR Secondary School, Dharmapuri	2021–2023
Percentage: 89.83%	
SSLC – Thanappa Gounder Matric HR Secondary School, Dharmapuri	2020–2021
Percentage: All Pass	

Technical Skills

Programming Languages: Python, Java, R, JavaScript
Frontend: HTML, CSS, React
Backend: Node.js, Express.js, Flask
Libraries/Frameworks: Scikit-learn, TensorFlow, Keras, Pandas
Database: MongoDB
Tools: Git, GitHub, Power BI

Soft Skills

Problem Solving, Team Collaboration, Communication, Time Management

Projects

Mental Health Analysis – ML Web App

- Built ML models (Logistic Regression, Random Forest, SVM) for mental health analysis.
- Developed full-stack app using Flask and React with data preprocessing using Pandas.
- Improved performance through feature engineering and model tuning.

Brain Tumor Detection – Deep Learning Web App

- Developed deep learning application for brain tumor detection from medical images.
- Integrated TensorFlow/Keras model with React frontend and Flask backend.
- Enabled real-time prediction through optimized deployment.

FarmConnect – Farmer-to-Market Platform

- Built web/mobile platform connecting farmers and buyers.
- Implemented product listing, order tracking, and secure backend architecture.
- Used React, Node.js, MongoDB, and Flutter.

Achievements

- BYTS INDIA Hackathon 2025 – Won **Best Implementation Award** for Traffic Prediction Project.
- MADATHON – 8-hour Intra College Hackathon.

Certifications

• Oracle Associate Developer Course	2025
• MongoDB Atlas Certification	2025
• IBM Software Engineering	2024

Area of Interest

- App & Web Development
- Database Management Systems
- Machine Learning
